

Zoono® Z-71 Microbe Shield Surface Sanitiser

Surface liquid disinfectant and protectant for professional and general uses

Zoono® Z-71 Microbe Shield Surface Sanitiser forms a long lasting antimicrobial coating that bonds to surfaces and protects against a variety of pathogens, including H1N1, Norovirus, E coli, MRSA and Salmonella, as well as mould, fungi and algae. Ideal for use within: hospitality, healthcare, commercial kitchens, education, business, residential, water treatment and laundry.

Active ingredient

ADBAC/BKC (C12-16) CAS 68424-85-1 0.50 % w/w (50g/kg)

Directions for use

Before any application, clean and dry the surface. Spray the entire surface evenly, making sure to cover the entire surface. Leave on for 15 minutes. Re-apply weekly or monthly as required

Storage

Store in the shade between 5°C and 40°C.

Caution

Treat exposure symptomatically. Seek medical attention if symptoms develop or persist. Following inhalation: In case of accidental inhalation or unwellness, remove to fresh air from exposure. If symptoms develop, seek medical advice. Following skin contact: If symptoms develop, consult a physician. Take off contaminated clothing. Following ingestion: If accidentally swallowed, rinse the mouth with plenty of water (only if the person is conscious) and consult a physician. Following eye contact: Rinse cautiously for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. If eye irritation persists, get medical advice/attention. Harmful to aquatic life with long lasting effects. Avoid release to the environment. Dispose of contents in accordance with national regulations.
